Frontend Developer with 3+ years of experience building high-performance and user-friendly web applications using React.js, Next.js, and modern UI libraries like Ant Design and TailwindCSS. Proficient in integrating RESTful APIs and deploying applications on server. Skilled in optimizing UI/UX performance and enhancing cross-browser responsiveness. Passionate about contributing to innovative global projects with a focus on sustainability.

SKILLS

Front-End Development: React JS, Next.js, HTML5, CSS3, JavaScript, TypeScript

API Integration: RESTful API, GraphQL, WebSocket

UI/UX Design: Figma, Material UI, Ant Design, TailwindCSS

Version Control: Git

Other: Three.js, Leaflet

Cloud Deployment: AWS EC2, Docker, Digital Ocean

Agile Development Process: Scrum, collaboration in cross-functional teams

WORK EXPERIENCE

Senior Frontend Developer	**Mar 2025 - Present**
Phuoc An Port	**HCMC, Vietnam**
Frontend Developer	**Nov 2023 - Feb 2025**
WALA ICT VIETNAM	**HCMC, Vietnam**
Frontend Developer	**Oct 2022 - Nov 2023**
MISMART	**HCMC, Vietnam**
Software Engineer Intern	**Jul 2022 - Sep 2022**
Speed POS Viet Nam	**HCMC, Vietnam**

PROJECTS

Phuoc An Port   **Mar 2025 - Aug 2025**

- Contributed to developing a debt management system for fuel stations, a smart container gate system and CRM Port.
- Built frontend logic and collaborated closely with backend and cross-functional teams.
- Supported CI/CD setup for deploying frontend and backend to dev environments.
- Researched and implemented single-page dynamic environment deployment solutions.

WALA ICT   **Oct 2022 - Nov 2023**

Key responsibilities:

- Developed and optimized responsive web applications using React and Next.js.
- Collaborated closely with back-end developers to integrate RESTful APIs, ensuring seamless data flow and dynamic content updating.
- Built reusable components and ensured UI/UX consistency across various devices and browsers.
- Participated in the full product development lifecycle, from requirement analysis to deployment.
- Conducted regular code reviews to maintain high code quality and performance.
- Deploy frontend applications on VPS/AWS EC2 with SSL configuration and Dockerization

HiOne (5 Members) Jul 2024 – Dec 2024

Key responsibilities:

- A comprehensive program designed for health-care management systems for welfare centers offering home-based care for the elderly and disabled.
- Lead the team, analyzed requirements, and broke them into tasks
- Set up the frontend base source code.
- Managed project progress and ensured timely delivery
- Technologies: React JS, Ant Design, Zustand, React Query

Regen (4 Members) Feb 2024 – Jul 2024

Key responsibilities:

- A comprehensive program designed to facilitate the administrative tasks of ERP (Enterprise Resource Planning) administrators in a hospital setting, offering support for various functions and responsibilities.

Technologies: React JS, Ant Design, Zustand, React Query

Hyundai (4 Members) Jan 2024 – Feb 2024

Key responsibilities:

- Admin dashboard for car management.
- Technologies: React JS, Ant Design, Zustand, React Query

Kiwivine (4 Members) Jan 2024 – Feb 2024

Key responsibilities:

- Site for subtitling, captioning, dubbing, webtoon/web novel localization, and media processing services.

- Technologies: React JS, Ant Design, Zustand, React Query

The One Matching (8 Members) Nov 2023 – Jan 2024

Key responsibilities:

- Build site worker job advertising website.
- Technologies: Next.js (13), Ant Design, Redux Toolkit, Redux Toolkit Query

MISMART   **Oct 2022 - Nov 2023**

Key responsibilities:

- Constructed UI from Figma designs, integrating business logic accurately.
- Worked with RESTful APIs and GraphQL to enhance application performance and responsiveness.
- Contributed to the development of reusable components for a more efficient front-end architecture.

Cloud Skyeye Center (3 Members) Oct 2022 – Nov 2023

Key responsibilities:

- Contributed to a commercial-grade drone image processing application, focusing on building intuitive, responsive interfaces with React and Three.js.
- Integrated Leaflet for dynamic geographic data visualization.
- Technologies: React, ThreeJS, Leaflet, Docker, Material UI

Label Studio (3 Members) Jul 2023 – Sep 2023

Key responsibilities:

- Built the interface for user management, role permissions, and integrated Leaflet maps in Label Studio. Developed a labeling tool for detecting antenna items using a point cloud processing library, enabling the drawing of bounding boxes and marking antenna item points.
- Technologies: Vue, React, Docker, Ant Design

SPEED POS VIET NAM   **Jul 2022 - Sep 2022**

Key responsibilities:

- Utilized C# (Winform) and SQL to enhance and maintain features for the company's EInvoice application.
- Developed and maintained an Interface application in C# (Winform) and SQL for seamless data transfer between API and Database.

EDUCATION

Engineer's degree Software Engineering   **Sep 2019 - Jul 2023**

HCMC University of Technology and Education

GPA: 8.55/10
